DI MILANO**

OVERVIEW

The Master degree in Data Science & Economics aims at offering an exclusive and high-quality study programme.

This internationally-oriented master degree is intended to provide students with both an excellent academic training and operational skills, as well as with a promising outlook for a future career as **data scientist**.

The Master degree in Data Science & Economics is a genuinely multidisciplinary programme, offering a well-balanced set of courses in computer science, statistics and economics. The program is entirely taught in English.

QUALIFICATIONS

Graduates of the Master's programme in Data Science & Economics are qualified to be tomorrow's experts in the increasingly complex world of new data emerging in all fields of social sciences, economics, business and finance.

Prospect careers include:

- + Data Scientist
- + Data Driven Economist
- + Data Driven Decision-Maker
- + Analysts of Projects and Policies
- + Marketing Analytics Manager

THE STUDY PROGRAMME

FIRST YEAR	ECTS	Area
Advanced Micro and Macroeconomics	12	eco
Coding for Data Science and Data Management	12	cs
Graph Theory, Discrete Mathematics and Optimization	12	mat/stat
Machine Learning, Statistical Learning, Deep Learning and Artificial Intelligence	12	mat/cs
Micro-econometrics, Causal Inference and Time Series Econometrics	12	eco/stat
Total number of credits earned at the end of the first year	60	

SECOND YEAR	ECTS	Area
Algorithms for Massive Data, Cloud and Distributed Computing	12	cs
Cybersecurity and privacy, Preservation Techniques and Digital Security and Privacy	6	law
Cumulative number of credits earned after the second year's mandatory courses	78	

THREE CURRICULA	ECTS
Economics	96
Business Innovation	96
Social Science	96
Cumulative number of credits earned	96
